OUR 4X4 TRIPS

The White Dune

On the road to Mauritania, 30 km away from Dakhla, discover the white dune, an impressive phenomenon standing up in the middle of the lagoon. It is a crescent-shaped dune of white sand. At high tide, it turns into an island. To date, this phenomenon remains a total mystery. This natural site is also a favorite site for flamingos.

Asmaa hot water springs

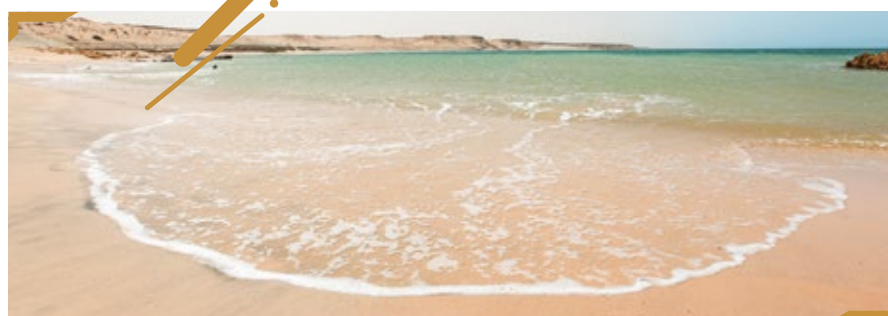

As you get back from the white sand, do not miss the Asmaa hot water spring for a natural sulphur warm water massage. Water springs from a pipe at 38° C and it is known for treating skin problems and respiratory diseases mainly. The unpleasant smell left by the sulphur water disappears with a nice shower! Ladies, opt for a one-piece or two-piece swimsuit that fits well.

Natural fish pedicure at Imlili

Go on exploring the Dakhla region with a trip to the Imlili desert. At the heart of this desert area, in the cracked ground, green reeds timidly show up, as the first signs of greenery. As you continue, you will come across natural swimming pools emerging from nowhere, at the heart of the desert. Nothing explains their presence, but one thing is certain, they are here and they are just one of the many surprises. As you look closer, these pools are filled with small fish! how do they survive in this apparently hostile site? Total mystery!

The Porto Rico Beach

If for you, holidays mean farniente under the sun rays, during your stay in Dakhla, don't miss Porto Rico. This quiet small village, located at some sixty kilometers from Dakhla, hosts an enchanting beach. This beach, named « the King's private beach », has been for long closed to the public. Today, this treasure is open to vacationers who can bask on the fine sand and bathe in the pristine water. The long immaculate beach seems endless with a cliff standing in the middle. It is indeed a pleasurable sightseeing itinerary.
